

## The Challenge – Module 2 – Day 3

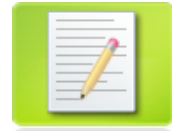

### 2010TCMD2D3d: Using Market Samurai to Write

Running Time: 5 mins

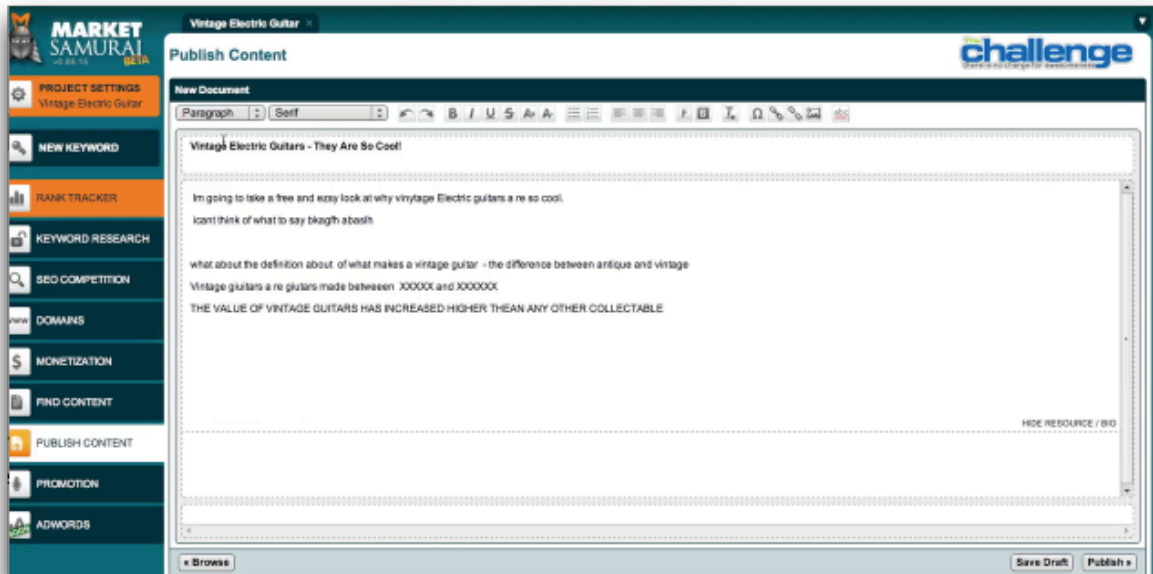

## Intro

Now, before I let you go at it and write, write, write, I want to show you a place where you can do it, which is just fantastic. And it helps save you a lot of time. And a lot of people don't even know this functionality exist inside of **Market Samurai**.

## Writing in Market Samurai

So, you remember our **Find Content** from yesterday, if we look just one tab down at **Publish Content**. This section is fantastic! And later on in the week, we'll show you how to use the section where you can automatically upload everything that you've created. But check this out.

If we just create a new document and we've got a **title**. And we could type something in here, **Vintage Electric Guitars**. So, in this top section, we put in our title. That will end up being the heading of our blog post eventually. And you can start your creative writing here. So, I'm just going to start. And I'm going to set my timer for ten minutes and type away.

And I'm just going to continue to type. You'll notice there's horrible spelling mistakes. There's everything there. I don't care. We'll worry about that tomorrow. I want to get my thoughts down on paper. I want to keep typing. If I can't think of what to say, I'll write... *"I can't think of what to write"*

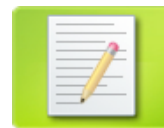

See? **It's all about letting your brain come up with ideas because it realize that you're not going to stop at any time**. And I just remembered, of course, that in my notes yesterday, I put out a *"what is the definition of vintage guitar"*.

*"The difference between antique and vintage... vintage guitars are guitars made between..."*

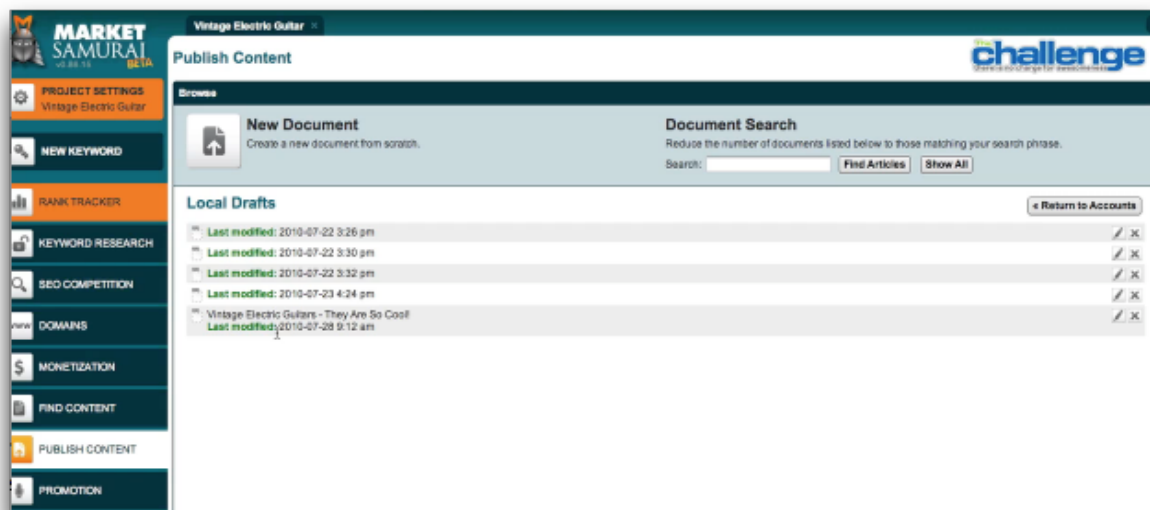

Now, you're not going to watch my entire ten minutes because you've got your work to do. But what I wanted to do was -- I actually can remember -- But for the purpose of this, I can't remember what the dates were. So, I'm just going to go xxx.

*"I also read yesterday that the value of vintage guitars has increased higher than any other collectible."*

And you can see there, it looks horrible. I've used caps. I've had spelling mistakes. I've had everything. I'm not going to correct them. I'm just going to keep going. And that's what I want you to do.

And **when you finish your ten minutes, I want you to stop**. I want you to hit **Save Draft**. I want you to hit Save Draft. And then, all you have to do is you can go off and go do your other stuff for the day. Do another, a lot of searching to find content. Go to Google, do any of that.

And you can see, we've got the draft. It will sit there waiting for us when we come back, okay? So, you can see here **View Local Drafts**. Look! It saves it in here for you.

## Wrap Up

But we're going to come back to that tomorrow. **It's very important -- super, super, duper, duper important that as soon as the timer goes off, you shut this down**. You save it. Shut it down. And you do not go back to it. Trust me on this. It will revolutionize the way you create content.

Okay! Now, it's your turn, go to it!

## Actions

- Try using the **Publish Content** module in **Market Samurai** to capture your ten minute writing session

**Handy Tip - DO NOT attempt to edit the content you write after today's lessons**. Letting the content percolate for 24 hours is crucial to the writing process Ed is teaching. If you're looking for more to do, write 2 or 3 articles for the day.
